

What others have said... ..

"I've been fortunate enough to have worked with the real Max for over 3 years. I don't know what I would do without him. I don't believe anyone can afford not to be a part of it."
Courteney Cox, actress

"The future is here. Check it out."
Herb Alpert, musician, artist

"I've seen Max do some amazing things, with me and with others. It would be unfortunate for anyone not to avail themselves of energetic balancing."
Burt Bacharach, composer, performer

"It's easy now to stand up for myself and seems harder to put up with situations that do not feel true to myself. I can finally say "NO" with much more ease!!"

Energy Balancing with the AIM programme

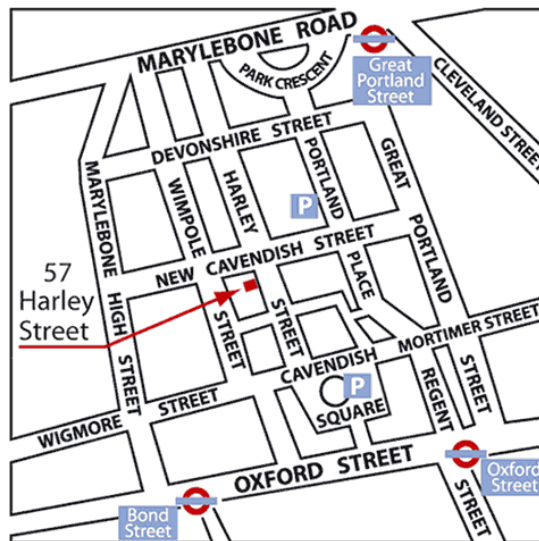

"If you are receiving Energetic Balancing from the AIM Program, you are, at a spiritual level, spending 24 hours a day healing every imbalance you have. That is the miracle of the Spiritual Technology of healing yourself holographically"

"We have a very simple mission here. We want to live in a world where everyone is conscious and everyone has the opportunity to express their true potential"

Stephen Lewis & Evan Slawson

Imagine a world in which the common cold is easily overcome, where AIDS is just another infection, where cancer victims routinely experience spontaneous remission...

Energy Balancing with the AIM PROGRAMME

Could it be that disease processes originate in the invisible subtle world of energy or frequency imbalances?

Is it possible that we are influenced by our ancestor's unresolved, unconscious energies?

Is it possible to be free and clear from all inherited baggage that is not our own, dumped on us without our consent?

Is it possible to be clear of all the man made environmental toxins that are hindering our health and immune system?

Energy Balancing with AIM

Yes, indeed, an intelligent, future thinking person would consider all of this as highly probable. The future of medicine is in this field of frequency healing, - what lies in the invisible world.

All of the above is miraculously now possible with the AIM programme using modern technology to provide healing energy and frequencies.

Based on the concept that **"if everything is energy then anything is possible"**, the All Inclusive Method (AIM) programme is run by EMC2 in America directed by Stephen Lewis and Evan Slawson

This is a concept that you either resonate with or you don't. If you have already been tested by Sheila Partridge at the Wholistic Medical Centre using the Bio Meridian testing system and felt comfortable with that method of testing then the AIM programme goes much further and deeper in providing clearing frequencies or energy balancing 24 hours a day over your photograph...

Wayne Dyer, a great supporter of the AIM programme, says: **"there is no disease, there is just frequency or energy imbalances. Disease vibrates at a certain frequency — so every disease has its unique frequency. Your photograph contains all the energy of who you are and is just a tool, the window for you to heal yourself"**

Everything is energy. Everything and everyone has a frequency. Those frequencies that are out of balance with our natural harmony can be identified and removed. We live at the threshold of a universal recognition that the human being is not mere matter, but a potent energetic field of consciousness. The goal of the AIM programme is to help you heal yourself.

With a range of over half a million different frequencies it is now possible through the AIM programme to clear all those negative, unresolved, unconscious energies or frequencies that we might have inherited as well as clearing many of those new man made detrimental environmental toxins

It is these negative frequencies **"dumped"** on us without our consent that hinders our healing process.

Measured as Life Force, we all deserve to have a life force of 100.

Life only really just begins when you have a life force of 100.

A Life force measuring 100 simply means that we carry no negative frequency - inherited or environmental that is hindering our healing process.

Unfortunately, most people today, including children, have a Life Force measuring as low as 1 out of 100 which makes them very vulnerable to not only becoming sick but also difficult to heal from an illness.

From a medical perspective, there is much we do not understand about disease, how it comes about and the different levels of healing.

The AIM programme deals with the subtle, invisible, energetic levels of a disease process - long before it finally manifests on the physical material level. On this physical level Modern Medicine is adept at dealing with and clearly has an invaluable part to play.

However, with the holistic, broader and preventive approach, looking at the bigger perspective, it is common sense and intelligent to consider also the subtle invisible contributory factors to health and disease. The AIM programme is most thorough and excellent at dealing with this invisible, energetic level of frequency imbalances—clearly an area which Modern Medicine is unable to reach or treat.

With a Life Force of 100 Life only just begins!

With a Life Force of 100, rather than unconscious living, acting out unresolved, unconscious baggage of our ancestors, one feels awake or fully conscious, like being a "free spirit".

With a Life Force of 100, rather than be driven by behaviour patterns that are not entirely our own, one finds it easier to be true to and stand up for oneself.

With a Life Force of 100, with no other baggage in the way, it becomes easier to live your true life's destiny - what we all deserve especially children.

From a **fully conscious**, awake and present state of being, one attracts situations that only encourage your growth, development and fulfilment.

An energetic imbalance appears to be a precursor of a material (physical) imbalance. EMC believe that consciousness creates the material world so an imbalance in consciousness could manifest in the physical world..

The AIM programme is a sound, reliable, honest and clean programme that truly lives up to its reputation.

Used by thousands of people to-date, the futuristic techniques illustrated in this book are now available to you!
